

STATEMENT BY THE COUNCIL CHAIRMAN ON THE LAUNCH OF THE 2019-2023 MUT STRATEGIC PLAN

Ladies and Gentlemen,

I am delighted to present to you the Murang'a University of Technology Strategic Plan 2019–2023. The Plan defines the direction that the University will take in the next five years. It is based on three key pillars namely, Academic Excellence, Quality and Institutional Capacity Development. Each of these pillars comprises various important objectives. The first two pillars reflect our teaching and research activities, while

the third represents the enabling environment of sufficient infrastructure and resource base.

It is important to note that the University involved various stakeholders in the development of this Strategic Plan, thus taking into consideration the concerns of interested parties and ensuring that the process is in line with the letter and spirit of our Vision. With this level of consultation, We are positive that the Plan will play an important role in the realization of our aspirations to be a leading University in technological innovation, research and training.

I wish to thank the members of Council and Management who facilitated the development of this Plan. I call upon the entire team to play their part in ensuring that the University delivers on this Plan.

With those remarks, it is now my pleasure to declare the Murang'a University of Technology Strategic Plan 2019-2023 officially launched.

Professor Joachim Osur, Ph.D.
Council Chairman
